The BUCK STOPS Here!
The saying “The BUCK STOPS Here!” made popular by President Harry Truman suggests there is no higher authority. Accordingly, multiply your market value and income to a householded level or association (or affiliation) with broker/mentor Al Lewis whose multifaceted career spans five-decades: the ’70s, ’80s, ’90s, ’10s, and Teens of the New Century. THE PATH TO SUCCESS / Well Being, Stability, Power, and Money through Real Estate. Real estate is a tough business. Success for most is found on the far side of failure. Sometimes the learning curve is short, sometimes it is long. When long, delayed rewards often end a promising career early subverting the wishes and dreams of many. Bypass the curve completely. Start at the “Top” and stay there in partnership with broker Al Lewis within one of four paths that follow. Go to each website to explore the possibilities. Start or stimulate your career here.

The Top Job in Real Estate.
